Materials List for Clear Blue Tiles

Use Kimberbell Clear Blue Tiles by placing by marking your tile, and hooping and stitching the quilting design. All tiles have the same scale for a continuous all-over effect. This is a beginner class.

To keep everyone working on an easy project there are two options.

A) <u>IF</u> you can make the table runner (houses and trees) that is included with the Essentials package, bring it along with
- batting 1 inch larger than the runner and
- backing fabric 3 inches larger than the runner

OR

B) At least a half yard of fabric for front and back and batting (solid color so you can see your progress)

    AND

- Clear Blue Tiles Essentials Package
- Embroidery Machine, thread, and standard notions for embroidery
- 180x130 hoop (magnetic if you have one); optional to bring any other hoop of this group 100x100, 120x120, 150x150, and/or 240x150
- If you have it, bring the grid template (clear with red grid lines) that might have been included with your hoop
- Double sided tape - ResQ tape by Dritz is my favorite (used to hold hoop in position when hooping)
