

Over and Under

Companion pattern for the Tucker Trimmer I™ by Studio 180 Design

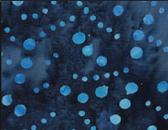

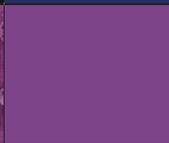

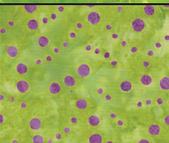

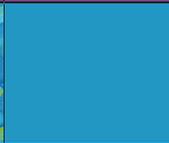

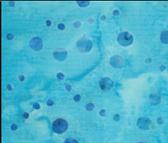

Finished Quilt Size: 67" x 67"

Create this unique quilt while mastering five techniques perfectly pieced using the Tucker Trimmer I™ with this 6 month program. Using the Tucker Trimmer I™ you will construct the units slightly oversized and then trim them to achieve high precision. This is a great design and program to develop or improve your piecing skills.

Fabric Selection & Requirements

- The fabrics used in the cover quilt are from Island Batik's Summer 2025 fabric line Garden Gate designed by Kate Collaran.
- When selecting your fabrics, you want to create contrast to preserve the "Over and Under" design.
- It is best to use fabrics saturated with color, they can be solid fabrics or small to medium scale prints.
- The contrast in this design is created by selecting 3 main colors Blue, Purple & Green. Then using fabrics with different values and a couple fabrics that have 2 of the 3 colors, I call these multi-color or cross-color prints. These fabrics help tie the color plan together and could be considered coordinates.
- The values listed below are recommendations only. And remember there is always the option for using a dark Background with lighter fabrics.

Fabric yardage is based on 40" of useable fabric.
