

**Class Name:** Snow Skirt Weekend

**Teacher Name:** Debby Carter

**Email:** [cullercreations@gmail.com](mailto:cullercreations@gmail.com)

### **Class Description:**

Come join us and make your own Snow Skirt in a weekend at Seams Like Home. You can choose from the original Snow Skirt, the SnoMotion and It's a Wrap. We will meet on Friday evening to get started and complete your skirt on Saturday. You will be so much warmer this winter in your own insulated skirt and you can choose the colors and trim!

### **Required Supplies:**

- Sewing machine, regular presser foot, zipper foot (walking foot is very helpful, if you have one)
- Snow Skirt pattern of your choice
- Materials as specified on the pattern
- Pattern ease to trace your size

Be sure to have all your fabrics and supplies before class begins. If you have questions about the patterns, please plan to come in to the shop to learn more and get your supplies. I'm happy to help. There are several insulated skirts in different sizes made up at Seams Like Home. You are welcome to come and try them to determine the correct size.

- Note: If you are not able to bring your machine, you may rent a sewing machine from SLH. Please contact the shop at least 1 week in advance of class to ensure a machine is set up for you
