

Class Name: V8 is great – Part 2 – Beyond the basics.

Teacher Name: Gene Looman

Email: gene@aksewinman.com

Class Description:

This class is the next step for BES V8 owners. We will dive deeper into the software and learn some more of the advanced basics in the software. Including but not limited to advance lettering capabilities, creating your own decorative patterns, and much more! It is strongly suggested that this class also be taken before the rest of the classes because the material covered in this class is not covered in any of the others.

Required Supplies:

- Laptop with V8 Software installed
- Power Cord
- Mouse (Optional but the program is much easier to use with one instead of just the track pad on the laptop)
- Pen (writing utensil of your choice)

Optional Supplies:

- Small table top light

***Notes:** anything else you'd like to mention to your students
