

# Beginning Westalee Ruler Work Class

## with Nancy Walters

This class will teach you how to do ruler work on your sewing machine. In this first class you will learn the proper set up of your machine for ruler work, how to fix tension problems, learn what all the markings on your ruler mean, how to pull threads to the top when you start and finish, and how to bury your threads. You will be learning the grid block on 10" x 10" quilt sandwiches, with a finished quilt block size of 6" x 6". Your first quilt sandwich will help you become comfortable moving your arc ruler against the stationary ruler foot while moving your fabric and arc ruler together. Your second quilt sandwich will be provided for you with the markings on it to practice the grid block with your 12" arc template without breaking thread. You will then learn how to mark the third quilt sandwich and quilt the final grid block.

The Westalee Design Sampler Template Set will also be used in future classes. All six templates in the set are used to make a 36" x 36" sampler quilt consisting of four 6x6 blocks, four 6x24 blocks, and one 24x24 center block (finished sizes). Each block is different and teaches a new ruler design, and the center panel combines several ruler designs.

### Supplies Needed

- Required Westalee Products:
  - Ruler Foot and Westalee Design 12" Arc Template (Be sure you have the appropriate foot and ruler height for your machine) (WF-W) ✓
  - Westalee Design Sampler Template Set 1 (WT-WQTSS6) ✓
  - Westalee Design Crosshair Ruler (WA-CHS8PT-12.5) (not needed for the first class but will be needed for future classes to ensure accurate marking for template placement on your block) ✓
  - Westalee Spacing Gauge (WA-SPG) ✓

**IMPORTANT:** *The ruler foot with arc template and the design template set can be purchased for either low OR high shank machines. There is a difference in the ruler foot shank and template thickness for low and high shank machines. It is important you have the correct ruler foot and template set for your machine before class. Please tell us the model of your machine and we will see if you need to purchase a high or low shank foot and template set.*

- Extension table for your machine; one that came with your machine or a Sew-Steady extension table. Sew-Steady extension tables are not stocked at Dublin Sewing Center as they are cut at the factory for your machine model. If you need a Sew-Steady table, please order as soon as possible to ensure you have it for your first class. ✓
- Sewing machine in good working condition that can lower feed dogs. Needle should have ability to be moved in small increments to the right or left. Please bring your machine manual. ✓
- Free motion glider mat ✓
- Scissors or snips ✓
- Small sewing gauge or ruler with sharp, clear markings ✓
- Good quality 50 wt cotton thread (Aurifil is good) with two bobbins wound before class of same thread in a color that contrasts with your fabric ✓
- Two 10" x 10" quilt sandwiches made with solid color cotton fabric (Kona is good) and cotton batting (Warm & Natural is good).
- 90/14 topstitch needles ✓
- Fine point fabric marking pen, either iron off or water erasable ✓
- 505 Temporary Spray Adhesive ✓

- Self-threading hand sewing needle ✓

✓ Denotes items available for purchase at Dublin Sewing Center. These items should always be purchased at Dublin Sewing Center to ensure that you have the correct product and to ensure that we can continue to teach these Classes at a low price. Please remember, though, that we only carry a few of each item at a time so it is best to purchase your items prior to the class (in person or by phone).
