Fun with your Cutter – Decorated Cutting Board

with Jerry Hunter and Elaine O’Hanlon
Downloading Cut Files and Applying Permanent Vinyl to Glass

Supplies Needed

- Brother Scan N Cut 2 (CW650W) or Silhouette Cameo cutting machine with all cords and cables ✓
- Cutting Mat and weeding tools of your choice ✓
- Laptop computer with wi-fi capability
- Silhouette Studio software installed on your computer (for Cameo users) or
- Brother Scan n Cut Canvas account (for Scan n Cut 2 users)
- If you don't have a laptop computer or a Brother Scan n Cut Canvas account, bring a flash drive ✓

We will have a class kit available for purchase at our meeting which will contain one cutting board and enough vinyl to decorate your cutting board. Each kit will be \$12.00. This month we will bring enough for one kit per attendee.

In this class we will be cutting two colors of permanent vinyl and applying it to a glass cutting board. In the sample cutting board, the design was purchased from the [Silhouette Design Store](#) (Split Kitchen Utensils). If you have a Scan n Cut and would like to use this design, you will need to set up an account with the Silhouette Design Store and download the free Silhouette Studio software. Open the design and print it in all black. You can then scan the print into your Scan n Cut. The name was created using a font on my computer. Using the Silhouette Studio software, you can use any font in your computer. Using the Scan n Cut, you can either use the fonts in the Canvas software or create a Word document with any font on your computer, print it in black and scan it to your Scan n Cut.

At our first class, we handed out a list of websites where you can purchase cut files. You may want to shop around before class to find a design you would like to apply to the board. **Please keep your design simple, as the more detail in the design, the harder it will be to weed. Weeding does take practice, so if this your first time weeding vinyl, please keep it simple!**
