

Learn to Fit the Perfect Shirt

May 14, 2020

10am-2pm
with Susie Brown

This is a Palmer/Pletsch beginning fit for fashion sewers. Never have a fit disaster. Follow our tips for tissue-fitting and altering the pattern before you ever cut it out of fabric. The neckline is one that flatters most women by framing the face. The vertical darts will accentuate your small waist. What? No small waist? Then just ignore them. You can even straighten the side seam to take the shape out of it! View A has a cut-in armhole, most flattering for a sleeveless blouse. View B has a cuffed ¾-length sleeve. View C has long sleeves with a wide cuff.

Supply List

Please wear a sleeveless top that is close fitting under your top. Please wear a good fitting bra as it will impact how your shirt will look on you.

- Basic sewing supplies: which includes pins, needles, thread, scissors, seam ripper, seam gauge, 12" Ruler, Glass head pins, and other basic supplies ✓
- Tracing wheel and carbon/dressmaker's paper
- Pattern: Mc Calls 6750
