**Additional Notes:**

## Preparation

To avoid additional charges, it's important to prepare your quilt top properly:

- Batting and backing a minimum of **4" larger than the quilt top** on each of the four sides. Muslin or other scrap fabric can be used to achieve correct backing size.
  - Backing and top squared so all edges are even.
  - Quilt backs pieced in advance, preferably with horizontal seams.
  - Top and backing ironed and wrinkle-free.
  - All loose threads clipped.
