Happy to have you interested in this workshop. This class has been scheduled for a one-day class. Although it is not a complicated project it has many steps that need to be taken to get us to our final “finish”. In order to get as much accomplished towards that finish, I recommend that you follow these pre-class preparations before the class begins. If you have issues understanding any of the requests, please reach out to me, and I will do my best to get you on your way.

Read thru your entire pattern. You will have directions for yardage amounts, cutting directions, and a planning sheet if you want to visualize that colors and fabrics go where to achieve the perfect finished look you desire. For a free coloring sheet use this link

[bit.ly/spacestationblueprints](http://bit.ly/spacestationblueprints) . If you choose to make a patchwork version use this link for cutting instruction, [bit.ly/patchworklaunchpad](http://bit.ly/patchworklaunchpad)

Have all of your fabrics, interfacing and battings, cut and labeled for prep and class.

Trish will have a small kit of items that come from your supply list that are more difficult items to locate. (KIT will include 7 sets of KAM Snaps (color choices) 3- 5/8” buttons (color choices), Round Elastic (9”) . See Trish for details, for color choices you can pick in class.

Begin - Page 7

Do Step 1 – (May do in class, bring 1/2yd of co-ord fabric)

Do Step 2

In Class -

We will do Step 3 thru 5 (including Fig.12, Fig.13, Fig. 14)
