

Janet Sansom Embroidery

Embroidery machine

Hoop/hoops – we will be showing how to multi-hoop but the designs will fit in a 4 X 4 hoop or all the way to the jumbo hoop

Templates for your hoops

Purchase your “Double Wedding Ring” design by going to

www.embroiderystash.com

Print out **all** the directions for the designs. Yardages are given in the collection (yes, I know it’s in metric but a yard is just a few inches less than a meter) Base yardages on how many you want to use dependent on your project.

Have your fabric prepared **BEFORE** coming to class – that means that it should be backed with Shape-Flex or fusible Heat ‘N Bond. Spray starching and pressing the fabric after it has been backed will help make a smoother result. Have your blocks cut to size as directed and then marked with vertical and horizontal lines depending on the size of design/hoop you will be using.

Stabilizer – tear away such as Ultra Clean and Tear

Threads in your choice of colors

Bobbins filled with bobbin thread

Embroidery needles size 75
