## INSTRUCTIONS

SEWITONLINE.COM

**Step 1:** Cut 2 of pattern A fabric right sides together, cut 2 of pattern B fabric right sides together. Cut 2, 6.5in pieces of 1/4in elastic.

**Step 2:** Fold pattern A fabric 1/4in from end (as shown on pattern) top stitch down.

**Step 3:** Fold pattern B fabric 1/2in from end (as shown on pattern) top stitch down.

**Step 4:** With pattern A fabric right sides together, sew curved seam to create the center of mask with 1/4in seam allowance with a straight stitch. Clip curved seam to allow seam to lay flat.

**Step 5:** With pattern B fabric right sides together, sew curved seam to create the center of the mask with 1/4in seam allowance. Clip curved seam to allow seam to lay flat.

**Step 6:** Match pattern A and B at middle seam (nest seams) and stitch with 1/4in seam allowance both layers together at top and bottom (leaving ends open). Pattern A WILL BE LONGER THAN pattern B!

**Step 7:** Before turning right sides out, zig-zag stitch pattern A and B edges together at the nose of the mask (2in down from top point on both sides, 4in total).

**Step 8:** Slide wire between 1/4in seam allowance and zig-zagged edge at nose point, bend slightly around the curve.

**Step 9:** Turn mask right side out using the side openings.

**Step 10:** Fold pattern A (folded edge) down to meet pattern B folded edge, top stitch pattern A 1/4in from fold to form a tube end for elastic.

**Step 11:** Slide 6.5in piece of elastic through tube opening on both ends of mask (pattern A side), bring both ends of elastic together and stitch 1/4in, stitch back and forth a few times to secure the ends together using a straight stitch to reinforce elastic.

**Step 12:** Tuck sewn ends of elastic through tube and YOU ARE FINISHED!!
