

AgriProTech

Innovation dedicated to farmers' help and assistance

AviTrac

Programmable
Acoustic
Repeller

Applications

- Field crops & Livestock
- Viticulture, fish farming, market gardening
- Roofs, storage areas
- Industrial buildings
- Photovoltaic power stations
- Wind farms

Distributed by :

3 weeks autonomy

Reliable
technology

Programmable
system

Manufacturing,
customer and
after-sales service
based in France

Protects up to 4 hectares

Long-lasting effectiveness

- Patented sound diffusion technology
- Respect for the environment
- Controlled noise pollution
- No risk for people

AviTrac Programmable Acoustic Repeller

Model Reference	Type of battery	Weight and Covered area	All models compatible options
AviTrac 9M Ref. P0011	Lead-acid PbSO4 12V - 5AH	8,5 kg 2 hectares	 ManTrac visual option
AviTrac 9M PLUS Ref. P0041	Lithium LiFePO4 12V - 7.5AH	6,7 kg 2 hectares	 10W solar panel module
AviTrac 18M Ref. P0021	Lead-acid PbSO4 12V - 7.2AH	7,5 kg 3 hectares	 WiTrac remote control on request
AviTrac 18M PLUS Ref. P0051	Lithium LiFePO4 12V - 7.5AH	7,2 kg 3 hectares	 Anti-theft accessories
AviTrac 18S Ref. P0031	Lead-acid PbSO4 12V - 7.2AH	10 kg 4 hectares	
AviTrac 18S PLUS Ref. P0061	Lithium LiFePO4 12V - 7.5AH	8,7 kg 4 hectares	

KEEPS AWAY SEVERAL SPECIES

- Crows and rooks
- Jackdaws
- Wood pigeons
- Gulls, seagulls, cormorants
- Starlings

Please note that some species are protected and require prior authorization for scaring

CHARACTERISTICS

Acoustic pressure: 120 dBA @ 1m
 IP55 waterproof enclosure
 More than 50 signals available
 Two time slots for operation
 Advanced programming (volume, signals, etc)
 Autonomy : ~ 3 weeks *

* 3 weeks (20 minute transmission interval for 14 hours per day)

Electronic acoustic repellers
 Visual and laser scares
 Protection solutions against
 bird and wildlife damage
