

Noteworthy Music

Family owned and operated since 1987

Our rental program was created by a family for families – We want to help your student prepare for a lifetime of music. We start with a **quality instrument**, keep our **rates at the lowest in the area**, and every payment you make goes towards purchase with **no cap or term limit**. You can apply that discount **at any time** to purchase the band or orchestra instrument, new or used.

We're here to help – We will gladly deliver your child's instrument directly to school, but we love visitors too! So we offer a **free starter lesson** if you come into the store. Whether you're looking for **accessories, method books, instrument repairs, private music lessons, rock band programs**, we take time to ensure your child has a great start.

Quality Instruments – Our instruments come from **top quality makers** such as Selmer, Armstrong, Vito, Cannonball, Amati, and Knilling. Each one is **thoroughly inspected** and **regularly maintained** to give your player the **best possible experience**.
