

Beautiful Brigham City-
Your Future is Here!

MAYOR'S OFFICE

April 29, 2020

Citizens of Brigham City

I appreciate the strength and patience of our citizens in these unique times. I am sorry for the frustration the Covid-19 pandemic has caused all of us. Brigham City is following the guidelines that have been set by the President of the United States and Governor Herbert.

These are difficult times for all of us as we try to keep people safe and healthy. The Governor and the Health Department made the call to close things like restaurants, playgrounds, team sports, areas of congregation, etc.

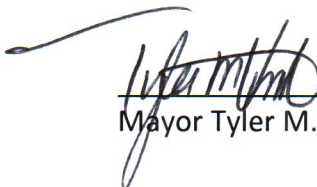

After meeting with the Governor and reviewing our numbers from the Bear River Health Department, as of Friday we will be opening the pickleball courts, tennis courts and disc golf course. Please note that the open areas at the parks are NOT CLOSED, only specific gathering and high touch areas are closed such as playgrounds and boweries. Everyone should follow social distancing guidelines.

We have been in communication with the State of Utah and the Health Department, and they are working to start allowing restaurants to open with some restrictions. We believe this is responsible since we are a rural area and have small numbers of positive cases.

We appreciate your patience and kindness to each other. We will all get through this together.

May God bless all of you and keep us all healthy.

Sincerely,

Mayor Tyler M. Vincent
