

Beautiful Brigham City-
Your Future is Here!

MAYOR'S OFFICE

March 24, 2020

Dear Brigham City,

We as Mayor and City Councilmembers want to assure you that we are following Federal, State and local health authority guidelines to alleviate the spread of Covid-19. While we understand that it is natural to be concerned at times like these, please know that we are monitoring the situation very closely.

While the full or partial closure of some services and facilities (such as senior centers and recreation programs) is necessary to protect residents' health; city leaders and staff are implementing creative new methods to do inspections, handle payments and provide meals to our most vulnerable residents. Although Covid-19 has many concerned about the future, our residents and city employees remain optimistic and possess the "can-do" spirit that has characterized Brigham City since its founding in 1867.

It is vital that we take a step back, take a deep breath and analyze our situation. Be kind and courteous to each other. We are all in this together. When you have to go to the store, purchase just what you need and leave items for others as well. Also, be kind to those who work at the stores and follow their posted limits on purchasing. They are doing the best they can.

Some are feeling helpless, alone and destitute. Reach out for help from neighbors, family, friends, or medical/mental health professionals. For reliable up-to-date information visit: the World Health Organization at www.who.int, State of Utah at <https://coronavirus.utah.gov>, or Bear River Health Department at <https://brhd.org/coronavirus>.

If you, or someone in your family, are feeling sick, have a fever, cough and shortness of breath; please avoid others and contact your primary care physician for next steps.

We want you all to know that we are all in this together and should be reaching out and helping each other. We care for all of our citizens and want the best outcome for all.

Sincerely,

A blue ink handwritten signature that reads "Tyler M. Vincent".
