

Eve Jones - I am from North Logan, UT and moved to Brigham City 32 years ago. I have a Bachelors degree in Civil and Environmental Engineering and a Minor in Mathematics. I worked as a civil engineer for several years in both Texas and Brigham City, and I taught math at USU Brigham City Campus until recently. I have had the opportunity to live in two foreign countries, Germany and China, so have a wide experience of the world but we have always come back to Brigham City because it is such a wonderful place to live. I have served Brigham City in several ways including being on the Planning Commission for 10 years, and being on some committees as well. I hope to serve going forward as a city council member. I'm very interested in working on getting an expanded system of trails for the residents, and in doing my best to keep Brigham City the wonderful place it is. I am for fiscal responsibility and spending every dollar effectively. If elected, I will represent the citizens of Brigham City to the best of my ability.
