#### **Arbor Day:**

Commissioner Nisonger reported that she spoke with the Principal twice and he is excited about planting trees. He needs to get in touch with the school board. She will ask him to contact Ms. Crockett to arrange an onsite meet with Supervisor Abraham. Discussion followed as to whether we would wait until the fall due to the COVID-19 issue.

#### **Community Rose Garden**

The group had a positive and spirited discussion on what would be the best plan to move forward. This is indicated below in bullet point format:

- Prepare a precise plan with steps for accomplishment
- Breaking the plan down into easily accomplished steps
- Share the plan with:
  - Community Clubs
  - Friends
  - Council
- Determine ways to obtain granting
- Review with Mr. Ekins Community Development's take on what they would need
  - Concept
  - Sketch plan
    - Google aerial of area
  - How to proceed
  - Detailed letter of intent with goals and outcomes
- Figure out how to have a volunteer base for maintenance

The group agreed that when they are able to implement this will be a great place for community connection and engagement.
