

I'm Sherry Phipps. Brigham City has been my home since Lee and I moved here in 1984. Our two sons grew up here.

With my active involvement in scouting coming to a close at the end of this year, I decided to run for city council.

My concerns include:

- Maintaining infrastructure – roads, power, water, sewer
- Investigating the practice of transferring utility funds to the general fund
- Ending the building of government-subsidized housing
- Ending private/government partnerships
- Lessening regulation on private business
- Steering clear of regulations that threaten individual rights
- Establishing a community standard to prevent sexually-oriented businesses from locating here

In 2016 the city proposed a bond to build a new senior/recreation center in addition to expanding soccer fields. I wrote a letter in opposition. I was asked by the city recorder to combine my letter with another one that had been submitted and present it at a city council meeting. Though the city spent precious resources printing fancy brochures mailed to residents in support of this bond, over 70% of the citizens voted against it.

I ask for your vote so together we can make Brigham City better.
