

COVID-19 Situation Report

May 12, 2020

www.brhd.org

Partners and Stakeholders: In an effort to answer questions and keep you informed about the Bear River Health Department's response during this COVID 19 outbreak, we will try to provide you with a daily situation update Monday through Friday. If pressing issues arise during the day or on a weekend we will notify you at that time rather than waiting for the next daily update. Feel free to share this update with your partners.

Bear River Health Department supports Utah Leads Together 2.0 and the phased guidelines provided by Governor Herbert. Copies of all orders and guidance documents can be found on our webpage.

Situation in Bear River Health District

CUMULATIVE LAB-CONFIRMED POSITIVE COVID-19 STATISTICS

Note – the numbers of cases and individuals hospitalized is cumulative and doesn't represent current infections or hospitalizations. Recovered individuals have been fever free at least 3 days without the use of fever reducing medications, have improvement in respiratory symptoms, and at least 10 days have passed since symptoms first began or a positive test was obtained.

Situation in Utah

Total Cases: 6,432

Total Tests: 153,485

Total Hospitalizations: 535

Total Deaths: 73

Estimated Recoveries: 3,267

- The state number of recovered persons is estimated by the number of cases whose first positive laboratory test was reported at least 21 days ago, excluding deaths. BRHD reports actual recovery data based on CDC recommendations.
