

# Whispers of Autumn Class

## Pattern by Kim Diehl

Welcome! This class will help you learn the blocks that make up this beautiful quilt. Depending on your fabrics, you can make this quilt as scrappy as you want to make it.

### Materials and requirements for today's class:

- Whispers of Autumn pattern by Kim Diehl
- Fabric: Please have enough of your fabrics cut out for two of each of the block patterns. The following is the minimum fabric requirements for the blocks you will make in class if you are not able to have your cutting completed prior to class. **IMPORTANT:** Please label each set of fabric pieces you cut with their corresponding letter. This will make things go much smoother. ☺  
Please bring all your fabric with you to class in case we need to cut an extra piece. Please reach out if you have any questions.
