

Cover Stitch

CV3440 Cover Stitch

Overview

The CV3440 is an advanced cover stitch machine that allows you to create a wide range of cover stitches on many types and weights of fabric for both decorative and constructive applications. It features single-sided tri-cover stitches, wide cover stitches, and narrow cover stitches, as well as the chain stitch. Other highlights include a large work space, free arm, thread cutter, LED light, color-coded easy looper threading, and snap-on feet. The adjustment dials for stitch length and differential feed are now conveniently located on the right-hand side of the machine. With three needles and one looper thread, the CV3440 can create professional hems, chain stitching, and decorative stitching.

Extra large 6.1" x 3.9" workspace

- Comfortably work on projects with ample free space surrounding the needle.

One-touch tension release lever

- Simply lift the presser foot to release all the thread tensions for easy fabric removal. The tensions remain open until you lower the presser foot again for ease of use.

Free arm

- We've added a free arm to make sewing necklines, hemlines and cuffs even easier.

LED light

- The addition of the LED light adds not only brightness, but reduces the heat put off by a standard light bulb.

Thread cutter

- Accessible thread cutter for added efficiency.

Adjustment dials on the right-hand side

- The differential feed and the stitch length adjustments are conveniently placed on the right-hand side of the cover stitch machine.

Single-sided cover stitching

- Capable of making single-sided tri-cover (6mm), wide cover (6mm), and narrow cover (3mm) stitches. The cover stitch will appear on the bottom side of the fabric, while a top stitch will appear on the top of the fabric.

Chain stitching

- This cover stitch machine has the capability to make a 1-needle, 2-thread chain stitch.

Optional attachment ready

- Comes complete with the mounting holes for using the many kinds of attachments Brother has available, as well as many competitors' attachments.

Up to 1,000 stitches per minute

- Sew up to a speedy 1,000 stitches per minute.

Metal thread antennae

- Thread antennae is metal for added strength.

Presser foot pressure adjustment dial

- Easily adjust the pressure of your presser foot with the adjustment dial located on the top of machine, above the needle. Simply turn the dial to the left or right to adjust.

Vertical needles

- Needles are set vertically, increasing needle penetration while decreasing risk that needles may damage fabric.

Basic Features
