- 3600 S to 2450 S
 - Some delays have been encountered coordinating power pole locations with Rocky Mtn. Power.
 - Construction to begin in 2024
 - Anticipated to be covered 100% by grant funding
 - Project to coincide with significant road improvements and adjustments to 1200 W
- 2450 S to Brigham City
 - Construction anticipated in 2027
 - Anticipated to be funded primarily by grant funding

Well #5 (new culinary water well)

- Legal preparation is ongoing
- Engineering and design work is forthcoming
- Construction is tentatively anticipated 2026-2027
- Funding sources include federal ARPA funds and local Impact Fees

Generators for Well #3 and #4

- Majority of costs covered by FEMA grant funding
- Construction is anticipated in the summer of 2024

Community Forestry Partnership Grant

- Recently Awarded
- This grant will provide for tree maintenance as well as a tree inventory, management plan, and updated ordinance.

State Building Construction (located behind the Bridgerland Technical College and the Driver's License Division)

- This is a state project that will house Highway patrol services, dispatch, and the Driver's License office.

Impact Fee Update

- Perry City is updating the impact fees for water and parks. These fees apply to new development.
- Study should be complete and new fees adopted

We have only provided basic information on each topic and there are many more projects and endeavors occurring in Perry City behind the scenes. We also recognize that each of our many residents will have varying opinions on the validity and value of each city project. Please feel free to reach out to city representatives with any questions or comments you may have!
