

# Andrew Watkins

Perry City Council 2017

I have lived in Box Elder County for 13 years, and in Perry since 2012. My wife, Nicole, five children, and many good people have influenced me for good - so I'd like to give back, work hard, and serve. I have been an educator for 13 years and earned a BA in History and a MFHD (Masters of Family and Human Development) from Utah State University. Please explore the [Andrew Watkins for Perry City Council](#) Facebook page and email me with any questions at [watkinscitycouncil@gmail.com](mailto:watkinscitycouncil@gmail.com).

I am running because (1) I have a deep interest in serving and strengthening the community and securing the best future possible for my five children and Perry friends, (2) I feel that I can establish healthy and diplomatic relationships with all citizens, (3) I value healthy economic development while preserving Perry heritage, history, and culture, (4) I support Perry community events as well as road/park safety and improvement, and (5) I will seek to be well-informed in order to make wise decisions regarding finance allocation and community issues.

I respectfully ask for your consideration and vote as a member of the Perry City Council. Regardless of how we choose to vote, may we all be responsible and concerned citizens by making a great voting presence this year!
