**DEBRIS BASIN DUMPING**

Perry City has detention basins that help to contain run off water in our City. Some of these detention basins are being filled with lawn clippings, tree limbs, etc. This makes it hard for the water to flow through the basins and as a result they get plugged. Perry City Public Works has put "No Dumping" signs on the outside of the fences surrounding the basins. These detention basins are private property and could be

considered trespassing for illegal dumping which could lead to a citation. Please help us to keep the basins clean, by taking care of your green waste and other debris. Perry City Residents can use the green waste site for their dumping. .
