Project of the Month

Greetings from the Round Bobbin!

Another year gone - another year of **new beginnings** and **new possibilities** and **ANOTHER YEAR OF SEWING!!!** Right? We hope you will include us in your plans for 2019. **Let's make it a good one!**

We're starting off, of course, with our Class Preview Open House. If the weatherman cooperates (not like this past weekend), we will be ready and waiting for you here on **Saturday, January 26 and Sunday, January 27!** The Open House format has worked well the last two sessions, so we've decided to do it again! Class samples will be hung, refreshments will be on the table, teachers will be here to inspire you and, of course, there will be the usual chance for prizes and giveaways!

There might even be a thing or two on sale! The teachers have done a great job once again in coming up with some really interesting things to share with you. There's some piecing, some quilting, some weaving, some smocking and even a graduation party! Again, **no registration is required.** Just wander in when you want to and check it out!

We're starting a brand new pick up **Block of the Month called Sailaway** - another original from Gina. This will be offered in two color ways - nautical and batik. Read on for more information. Also from Gina (pew she's been busy!) is **Cutie Pie**. This is a quilt she designed using the LITTLE SWEETHEART collection by Edyta Sitar of Laundry Basket Quilts. She has outdone herself with this one! We have decided to pre-sell kits. As of this writing, price is to be determined, but we will be taking orders and deposits at the Open House. Trust me, you won't want to miss out on this one! A picture is included inside so read on.

So, we're ready for you! Come in for all your quilting needs! We look forward to seeing you this weekend and all through the year!

**Keep stitchin', and as usual,
May Your Bobbins Always Be Full,**

Susan

I LONE STAR AND LONE STAR VARIATIONS

The Lone Star is one of the visually simplest and yet most stunning of traditional quilt patterns. The 8-pointed star is made up of smaller diamonds and creates a visual effect of color and pattern radiating from the center of the star out to its points. Because of their many pieces, these patterns take a little time to master. In addition to classic versions of the Lone Star, there are other fabulous variations to be explored. This class will provide hands-on practice with piecing the Lone Star. We will start with a small star so that students can work through the basic construction techniques. We will then move on to planning and executing a larger version or any one of a number of variations. This is a workshop-style class where the technique will be taught in class and then there will be time for quilters to work with their own machines and materials during class. Don't miss this unique experience with Sarah!

B+ **I** COLOR AND GRAYSCALE: UP YOUR QUILT GAME BY WORKING WITH NEUTRALS!

"I love color. I love bright colors, and I love a lot of color in my quilts. So, imagine my surprise when I found myself attracted to grays and black and white in much of my recent work. All of a sudden, I was doing a lot of work in grayscale, and I was doing a bunch of experimenting with the juxtaposition of bright colors and neutrals. Because a lot of working with color is about value, it makes sense that working with grayscale would provide great experience in working with value without the distraction of color to muddy the waters." Who does that sound like? You guessed it, our very own Sarah Bond! Join Sarah in this very exciting, very creative, very eye-opening workshop where, through a number of exercises, you will work with neutrals to see where they will take you. You will be doing some compositions with grayscale solids and prints, then some with solid colors, and finally you will practice converting those solid color compositions to grayscale to understand the value in the color compositions that you are making. Sound interesting? Take advantage of this chance to learn from Sarah about such things. You never know where you might end up!

I MACHINE QUILTING - BEGINNING RULER WORK - SLIM

NOTE: REQUIRES SOME PROFICIENCY IN FREE MOTION QUILTING

Begin exploring the world of machine quilting with rulers with this Level 1 class using a straight quilting ruler. Susan will be using Slim by Angela Walters for Creative Grids, but any straight MACHINE QUILTING ruler you own will work. Why use a ruler and free motion quilting for straight lines? Because quilting straight lines with your feed dogs up and using a regular or walking foot requires you to spin your quilts as you follow the block lines. Using free motion and a straight machine quilting ruler eliminates this need, making straight line quilting on larger projects easier. We will be learning the properties of the particular ruler foot you purchase for your machine, quilting in the ditch, 1/4" quilting and border designs without the use of tape, point to point designs to fill squares and flying geese units, and we will introduce you to curve designs if you are working with "Slim" (or if your particular ruler has a curved end).

Please Note:

1. This class does not take the place of a basic free motion quilting class. You MUST be able to free motion quilt with some comfort and proficiency to take this class - but you need not be perfect!
2. Machine quilting rulers ARE NOT the same as rotary cutting rulers.
3. The Ruler quilting foot IS NOT the same as a free motion/hopping foot. You are responsible for researching and purchasing the correct ruler foot for your machine.

HIGHLY RECOMMENDED: Creative Grids Slim Machine Quilting Ruler \$21.99

Pick-Up Block of the Month

SAILAWAY

A Block of the Month Program
by Gina Gempesaw

Inspired by the Lady of the Lake block, this quilt features scrappy fabrics in a sashed layout. While our 57" x 74" sample showcases 12 blocks, you can choose to make a larger 74" x 90" quilt.

Offered in either Nautical or Batik colorways, this program runs for 6 months. Each monthly packet will include enough fabrics to make 2 blocks with the same color in the center. There will be two center colors used for the whole program.

Red and blue are used for the centers and the corners of the Nautical version while the Batik version will have black and white.

To make the larger quilt, be sure to pick up 2 packets monthly.

Because of the large number of Half-Square Triangles in this quilt, we **highly recommend** using the 1 3/4" Finished Half Square Triangle Paper to make accurate and easy Half Square Triangles. There will be enough fabrics in each packet for this method.

Finishing Directions will be provided at the end of the program.

Price: \$14.95/monthly packet
