| <b>Katie Winn</b><br><br><b>Saltsage</b>            | <p>Class Rating: Beginner<br/>Time Duration: One 6 hour session<br/>Price: \$50<br/>When: Friday, September 18th: 10:00 a.m. - 4:00 p.m.</p> <p>Description: Looking for a project that's beginner-friendly but doesn't look like a beginner made it? Saltsage is the perfect next step after your first quilt – eye-catching star blocks and on-point square accents come together in a design that looks far more advanced than it actually is. In this class, you'll learn the four-at-a-time flying geese method, a foolproof technique that makes quick (and accurate!) work of those star points. Because Saltsage skips sashing altogether, the blocks flow directly into one another for a bold, graphic quilt top with way less piecing math than you'd expect.</p> <p>By the end of class, you'll have the skills and confidence to finish your Saltsage top at home, plus a new favorite technique you'll reach for again and again.</p> |

One-Block Wonder is not a pattern. It is a process. Start with a fabric that has a pattern which can be measured in repeats, usually no smaller than 12". Cut six individual repeats into strips. Cut 60 degree triangles from the strips. Then those stacks of six triangles, which are identical, are sewn into half hexagons and pinned together to create kaleidoscope blocks. These blocks are then arranged on a design wall around a panel. Other design elements can be added if wanted. This is a simplified description of the process. Sign up for this class to begin the adventure.</p> |

I look forward to having you in the class to explore how to use thread to enhance any project. We take the fear out of trying this technique. You do not need to have a fancy sewing machine to do thread painting; however, you must be able to drop the feed dogs, machine in good working order, and have straight and zig zag capabilities. You will need to be familiar with your machine. Bring your manual ! We will play, play, play while you learn this technique. You will bring something you want to use as you learn, like a panel, a large floral print, or animal print. It will be great to explore your machine and all the textures you can create. Bring snacks, drink and lunch.</p> |

## Hop Around the Valley Shop Hop October 9<sup>th</sup> - 17<sup>th</sup>

The Phoenix Area Quilt Shop Association hosts the shop hop once a year so that the local shops of Arizona can be featured and show off the wonderful things they have to offer! Once you buy your passport, you will get all of the official rules, but see the information below for the general layout!

Here's how it works:

- Purchase your passport for \$10 and get a map, so you can start planning your route for the week of October 9-17, 2026
- From 10/09 - 10/17, you will visit as many shops as you can and view a demo of their favorite item of the season! Each shop will have a different item to demo.

- After you watch the demo, get a stamp on your passport
- Then you can shop all you want at each shop!

- Collect as many stamps from the shops as you can within the week.

Grand prizes will be drawn from those who visited ALL 10 shops, but tons of other prizes will be drawn for anyone who got 1-9 stamps.

- Turn in your passport at any participating shop before the final day of the shop hop

- After the final day, the shops will get together and draw passports for winners to the 30+ prizes we have to offer!
