

## Binding Class Supply list

In addition to general supply list that applies to all classes the following items are required for the class.

- Quilt ready to have binding (quilted & trimmed) – You can bring a quilt that is ready for binding or make a sample quilt with muslin or other scrap fabric. If you are making a sample quilt it should be at least 20" square.
- Fabric for continuous fold bias binding (this should be fabric that you plan to use on a quilt that is ready for binding or still in the piecing process). Figure the amount of fabric needed based upon the following charts.

**For 2" binding (the narrowest I recommend)** – compute the perimeter of your quilt and add at least 14" then select from the following:

Size of fabric to be cut	Length of binding
15" x 15"	100 inches
18" x 18"	144 inches
20.5" x 20.5"	200 inches
25.5" x 25.5"	300 inches

**For 2 ½ " binding** – compute the perimeter of your quilt and add at least 14" then select from the following:

Size of fabric to be cut	Length of Binding
16" x 16"	100"
19" x 19"	140"
23" x 23"	200"
28" x 28"	300"

(If you have a larger quilt or you want wider binding you can e-mail [cdweissend@comcast.net](mailto:cdweissend@comcast.net) with the size of your quilt and the width of binding and I can tell you the size of the square needed.

## Optional:

If you would like to make two color binding: bring two fabrics (one that will show on the front of your quilt and one to match the back of your quilt. This will be straight binding these should be WOF 1/4 to 1/2 yard of each depending on the size of quilt.
