

Part 1: Centering the Tea Towel

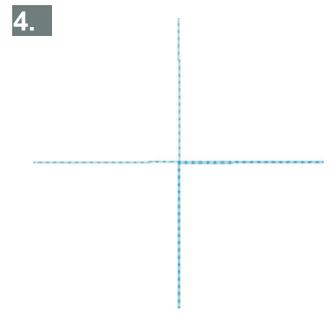

- Hoop **Wash-Away Sticky-Back Stabilizer**, glossy paper side up.

- With tip of scissors, or a scoring tool, score stabilizer inside the perimeter of the hoop.

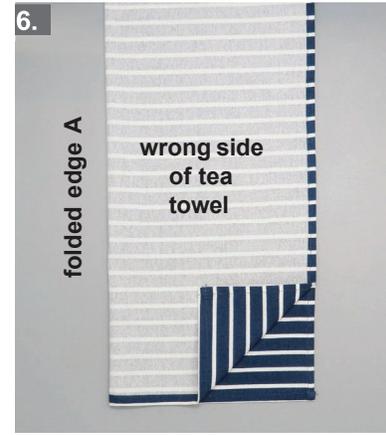

- Peel glossy paper from the scored section, exposing the adhesive stabilizer.

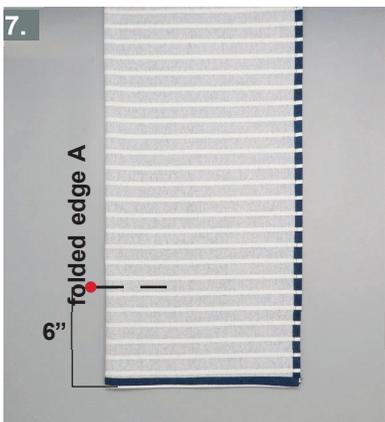

- Load the Centering Crosshairs embroidery file into the machine.

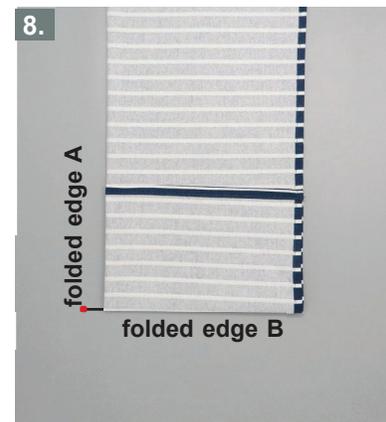

-  Stitch the Centering Crosshairs directly on top of the stabilizer.

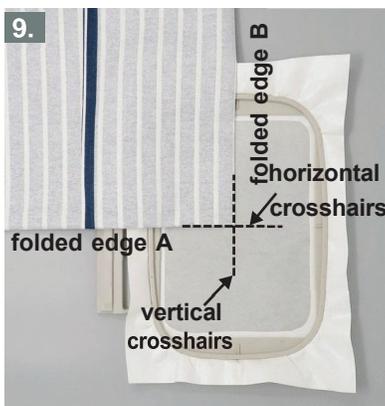

- Fold tea towel in half, **lengthwise**, **right sides together**, aligning the edges. Finger press well along the fold.

- Measure 6" **up** from the **bottom** of tea towel.
- Mark this point with a straight pin placed horizontally.

- Keeping the center crease aligned, fold tea towel **up** at pinned point.
- Remove pin.
- Finger press well along fold.

- Align folded edge A of tea towel with the **horizontal** crosshairs and align folded edge B with the **vertical** crosshairs.

- Unfold all layers of tea towel.
- Smooth firmly in place to adhere to stabilizer. Excess tea towel should be to the **left** of the hoop.
