

eXtend covermax

coverstitch machine

NEW FABULOUS STITCHING

The elna eXtend covermax is the coverstitch machine you were looking for! Combining up to 5-thread sewing and the use of 1, 2 or 3 needles, it offers a variety of stitch programs for professional looking hems and absolute versatility:

- a fantastic, new top cover stitch, available in three versions
- an exclusive built-in spreader for easy operation of the top cover stitch function
- completed by triple cover stitch, wide or narrow cover hem and chain stitch

UNMATCHED USER COMFORT

Because using a coverstitcher may be challenging, these unique features will facilitate operation and user comfort:

- bright LED lighting in two areas plus an amazing retractable front light
- a built-in needle threader with a selection lever for all three needles
- easy threading with color-coded guide and release system for looper
- automatic tension setting for precise stitching on fine and standard fabrics

ERGONOMIC SOLUTIONS

The eXtend covermax features a unique design with ergonomic solutions inspired by conventional sewing machines:

- extra-wide sewing area
- free arm for easily sewing tubular items, such as sleeves or leggings
- convenient location of the dials for stitch length and differential feed adjustment
- a wide extension table available as optional accessory

eXtend covermax
