

Beginning Quilting Class with Pam See

- Bring your sewing machine to the first class.
- You will need to find a **walking foot** and a **1/4" quilting foot** for your machine. These feet are specific to machine manufacturer, so do not assume that "one size fits all". I suggest starting right away if you do not have these, since many stores must order them and they may take a few weeks to get them in. Call me if you have questions 262-442-2643.
- I will hand out the supply list and talk about all the tools and supplies for quilting at the first class. You will be able to purchase these supplies in the store that day. Please bring a rotary cutter and mat to class if you have one.
- Be prepared to purchase fabric at the first class as we will be talking about and picking out the fabrics for your quilt. Quality fabric is important, as I will explain in class, and we all want to support this store so that they are here whenever we need quilting supplies!
- It is necessary for each person in the class to purchase the book "Start to Quilt" by Alex Anderson. There are several editions to this book, so to be sure you get the latest edition, you can get it at the first class.
- You will need to spend some time at home each week, working on your quilt. You will learn more if you complete each step with the class. If you follow along and do your homework, you will **complete a quilt in six weeks!**
