

Welcome to Our Judy Niemeyer Retreat!!!

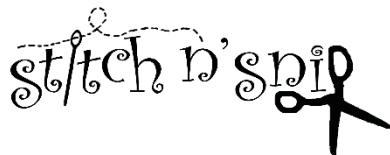

To pre-prepare for your Retreat Please do the following:

- Please cut all your foundations out by trimming 1/8-1/4" the outside perimeter, to get them out of the paper. Please DO NOT cut on any Cut LINES on the templates, we will use those when fabric is under the templates. If you have never done a Judy Niemeyer before you can go to YouTube Quiltworx channel to see this process. Keep each of the different units with their templates in their own bag and place the fabric that corresponds in the each of those unit bags.
- If you have purchased a kit that has Quiltster Labels on the fabrics, please do the strip cutting as follows:
 - Each of your fabrics have label stickers with the qty x size of strips needed (selvage to selvage as you normally cut strips), with the Unit number (example: L1, m2, etc.). Cut the qty of strips needed, place sticker on strips and place strips in the corresponding bag to match your foundations. (example: All of the L go with the L Unit).
 - If you are doing a queen size quilt you can cut and sew up your extension pieces if you know how to do Judy Niemeyer Paper Piecing, if not we can help get it cut out but probably will not get to sewing on it at retreat.
- If you are confident in the cutting process, you can cut all your fabric out with the templates and put into corresponding bag. We will be offering a pre-retreat prep class if interested. We will also be doing the cutting demos Monday night to show you fast and easy tips and tricks. (You can cut all Monday night and Tuesday morning)

We will be doing demo's all week long at the retreat to help you wherever you are at in your Judy Niemeyer Project!!

Here is a Paper Piecing Supply List (if you do not have any of items, we will have supplies available for purchase):

- Add-a-Quarter ruler with Folding template
- Glue Pen with refills (sewline is the brand we carry)
