

I would like to direct you to my campaign Face Book and Instagram pages, *Cristy for Council*. Here I have posted my previous profile (in case you missed it before the Primary Election), shared snippets of my last city council opportunity and comment about aspects of Salem that I think are important, including a lengthy post dedicated to growth. I will continue to campaign in this space as I offer more detailed information regarding growth and address other concerns citizens have shared with me.

I am running once again for council, because I love Salem and the people that live here. I also have a passion for preserving what is beautiful and creating new opportunities. Although there is always much to learn, I worked hard in my previous experience to gain an education regarding the functionality of the community, asked many questions and created relationships with people who are able and willing to help me get the job done.

Please click the links below for more information about me and follow me there for more to come!
