

Reconstruction work on Elk Ridge Drive is officially underway! After project completion, Elk Ridge Drive (from SR-198 to 11200 South) will be renamed Loafer Mountain Parkway, as a continuation of the newly constructed road.

Upcoming Work Activities

Work is currently ongoing in **Segment 1, 10300 South to Salem Canal Road.**

- Crews have removed all of the asphalt and are now working to complete roadway excavation activities through the end of this month.

- Today, crews are beginning the process of installing the new storm drain system. This process is expected to continue through early February.
- During the first week of February, crews will bring in dirt to serve as the bottom layer of the new road.

In approximately mid-March, crews will close Segment 2, SR-198 to 10300 South, and will work in Segments 1 and 2 concurrently. We expect to reopen Segments 1 and 2 in early June, around the time that the third and final segment, Salem Canal Road to 11200 South, will close.

Work hours will typically be Monday through Friday, between 7 a.m. and 7 p.m. Weekend work may take place on occasion if needed.

**Schedule subject to change due to weather or other unforeseen circumstances.*

Traffic Alerts

- Elk Ridge Drive is **CLOSED** between 10300 South and Salem Canal Road. 1700 West is the designated detour route.

- We expect to close Elk Ridge Drive, between SR-198 and 10300 South, in mid-March.

Safety

- Watch for construction vehicles entering and leaving the work zone. ***Do not follow construction vehicles into the work zone.***
- The speed limit along the detour route on 1700 West is 25 mph. Please reduce speeds and use caution when taking the detour route.

Project Background

The Utah County Board of County Commissioners is pleased to announce the construction of the new Loafer Mountain Parkway. Construction will take place

in several stages, including the reconstruction of a segment of Elk Ridge Drive, with **project completion anticipated for late-2024**.

The new build of Loafer Mountain Parkway is now complete, and open to the public! Reconstruction work on Elk Ridge Drive is underway, as of January 2024. This work will be done in segments, as shown on the map below.
