

Salem Residents,

The new Pressurized Irrigation Rates will be going into effect June 1, 2023. Note: residents will no longer be billed based on lot size year-round but will be billed year-round for a base rate, then during the watering season will be billed based on water used. Salem City has created a calculator that you can go input your estimated gallons used to see what your bill would be for the month.

On the city webpage (www.salemcity.org), you can click on the link for Pressurized Irrigation Meter Rates Information on the front page. The link will take you to the information page for the new rates and a calculator.

<http://www.salemcity.org/pressurized-irrigation.htm>

The new rates are as follows:

1" Meter Base Rate - \$30.13

Usage	Proposed Rate (\$/1,000gal)
Tier 1 (from 0-20,000 gal)	\$0.50
Tier 2 (from 20,001 -50,0000 gal)	\$1.05
Tier 3 (from 50,001 – 80,000 gal)	\$1.50
Tier 4 (from 80,001 - up gal)	\$2.20

(Most residents have a 1" meter, for other meter sizes base rate, please see the city website)

There are many websites you can visit to help you plan for this upcoming watering season for your lawn/garden.

Here is a link to one of them:

Utah State University – Yard and Garden Extension

<https://extension.usu.edu/yardandgarden/lawns>

There are other links on our website (on the Pressurized Irrigation Page) with more information.

Please visit these sites to help prepare you for the upcoming season.
