Commissioner Ballard suggested that Darrel look into purchasing the equipment necessary for the county to be able to do these projects internally, rather than contracting out. Ballard's reasoning behind this suggesting is that the cost to the county would be significantly less and possibly faster finish times. Ballard then asked Darrel if he was able to fix the low water bridge near Virgil; Darrel responded that he thought crews had completed the project but he would check into the matter. A brief discussion ensued regarding the high prices for lumber and steel. Commissioner Hodge inquired about the bridge west of Neal.
