Candle Mat in 260 mm x 200 mm hoop

Approx size: 9 ¾" square

Approx size: 7¾" square

In our class this month (November) we will explore and review the top features within our amazing Husqvarna Viking sewing and embroidery machine. We will create and stitch out the candle mat in our embroidery hoop using an embroidery design from our machine. The Design Shaping feature will be used to duplicate and evenly place our Christmas designs in a circle shape. The Design Applique feature will be used to attach the backing to the candle mat in the hoop. We will be creating multiple designs but only stitching out one design in class. This project adds an elegant touch to our holiday table and will look spectacular with a candle, candy dish, or a vase of flowers gracing the center of the mat.
