Fabric Storage Box
Project from the Creativate website created by Created by Anna Nyström

Picture from the Creativate Handout from the website.

This month (April), we will explore the resources available on the Creativate website. We will also be creating fabric storage boxes, a project that is both easy to make and highly useful. These customizable boxes are perfect for organizing fabric scraps, fat quarters, or notions in your sewing space. They also make an excellent base for a personalized gift basket for any special occasion.
