#### 2022 PROPOSED BUDGET

#### December 13, 2021

Honorable Mayor, Town Board Members and Citizens of the Town of Saguache, Colorado:

The 2022 Proposed Budget reflects a balanced approach to revenues and expenditures for all funds. Although needs typically exceed the availability of resources, the budget manages to accomplish the priorities of the Board of Trustees, staff, the community, and maintains the current level of service. The budget is a living document that serves as a planning tool for the upcoming year. The Board and staff refer to the budget all year to plan and execute the priorities of the community.

The summary of the proposed 2022 budget is below:

Town of Saguache Summary of all Funds January 1, 2022 through December 31, 2022

#### **BUDGET ANALYSIS**

The Town of Saguache continues to maintain of good financial position and has been able to rebuild healthy reserves. Because of taking a conservative approach to Town's finances, consideration should be given to using excess funds to purchase equipment and to begin to plan for critical maintenance and or replacement of Town's assets. Many of the facilities need critical maintenance to ensure the longevity of parks, buildings, water system and roads. The economic conditions of Town are stable, but a cautious approach must be taken due to the current COVID-19 Pandemic. The proposed budget takes a conservative approach to revenues in all funds that are consistent with previous years projections.

It is typical for communities to use deficits spending to consider one-time projects and equipment purchased for the upcoming year. This occurs when reserves are at a healthy level and a community is in good financial shape. In the 2022 budget tables, staff has included a reserve analysis to illustrate how much remains in fund balances to consider one-time funding requests.

As always, there are more requests than can be funded in any given year. Knowing how much the Board has in excess funds without spending down reserves is helpful when considering items beyond what is in the proposed budget. The Board should review the budget during the year to determine if amendments need to be made.

In addition to the reserve analysis, staff has included what a 30% reserve requirement would look like. The reserve analysis is not a policy currently and only serves as a guide.

#### **FUND SUMMARIES**

In the following sections provided, is a summary of the 2022 revenues and expenditures for each fund.

#### General Fund

The General Fund is the largest fund and provides for the general operation of town government and is funded by taxes, fees for service, fines, and includes some grants. Services in the General Fund include general government, auxiliary services, public safety, highway and streets, sanitation, culture, and planning activities of Town.

Revenues – The Town will maintain the same mill levy and sales tax revenues are projected to increase slightly to support law enforcement and general government administration. The law enforcement sales tax is transferred from the General Improvement Fund. In November of 2002, the Town levied 21.820 mills under the Tabor Amendment and is required to maintain the same mill levy in 2022. This will generate approximately \$69,351.00 in property tax. The total tax collections for 2021 are estimated at \$62,387.

There are no significant changes to other revenues and multiyear grant revenues are reflected in the budget. The revenues do reflect monies received through the American Rescue Plan in the amount of \$63,465.82. There is a decrease in grant revenue because of obligations in the Alpine Achiever grant. This may change depending on priorities of the Board of Trustees. In 2021, the budget will need to be amended to reflect American Recue Plan revenues and other sales tax grants proceeds that were deposited into the General. In addition, to streamline the payroll process all payroll will be processed from the general fund and lump sum transfer from other funds will be reflected in the revenues in the amount of \$183,625.50. The total revenues for 2022 are \$501,015.71.

Expenditures – The Town will see a slight increase in expenditures from 2021. The budget includes a minimal increase for health insurance and cost of living increases for staff in 2022.

The total expenditures for the General Fund are \$488,456.82 which include full payroll allocations.

At this time there is no deficit spending required from the General fund balance for expenditures. The fund balance remaining is \$432,104.07 that will result in an 88% reserve in 2022.

#### Water Fund

In 2020, the Town created a water and sewer enterprises fund, however each fund will be reflected separately. The Water Fund is an enterprise fund and provides for funding to cover the operating and capital expenses associated with the water utility. Fees are collected through monthly rates. Revenues cover the maintenance, operations, and capital projects required to provide water services to residents.

Revenues – The 2022 beginning balance was generated using the previous year's predictions. The Town implemented a rate increase in March of 2017 which is scheduled to increase incrementally over 10 years. In 2019 the water rate increased to \$33 per month and that rate continued through 2020 with a scheduled increase in 2021 to \$36.00. This rate will remain the same for the 2022 budget year per the adopted rate schedule. The town plans to install meters on high use business/buildings in 2022 and we will also do a project needs assessment for the overall water system. Total revenues for the Water Fund are estimated at \$227,050 which is an increase from 2021 budget.

<u>Expenditures</u> – The total expenses for the Water Fund are \$250,628.50 which is an increase from 2021 and will require deficit spending. This will leave a 97% reserve and an ending balance of \$243,246.90. Expenses are broken out for water activities:

 Salaries will be budgeted based on a spilt between the four town fund accounts. There will be an increase in wages due to 3% cost of living increases for staff and an increase in insurance costs.

- Unknown expenditures at this time are cost associated with Augmentation and needs assessment costs. Augmentation is reflected in legal services, professional services. Additional unknow expenditures may be experienced in the installation of meters and the purchase of equipment for reading meters.
- Non-operating expenses will remain the same.
- Priority projects should include:
  - o Replacement of main valve shut offs.
  - o Rehabilitation of the exterior of the pump house 1 and 2.
  - Replacement of three fire hydrants.
  - Possible maintenance on the water tower.

#### Sewer Fund

In 2022, the Town will have a combined water and sewer enterprises fund, however each fund will be reflected separately. The Sewer Fund is an enterprise fund and provides for funding to cover the operating and capital expenses associated with the sewer utility. Fees are collected through monthly rates. Revenues cover the maintenance, operations, and capital projects required to provide sewer services to residents.

Revenues - The 2022 beginning balances are generated using the previous years projected ending balances. The Town implemented a rate increase in March of 2017. Those rates increased in 2021 based on the adopted 10-year schedule of increases to \$36 per month and this will remain the monthly rate for the 2022 budget year. Revenues for 2022 will decrease slight from 2021. Total revenues for 2022 are \$161,500.

Expenditures – In 2022 expenditures will increase slightly due to changes in payroll. Operating expenses are \$188,205.50 and represents an increase of \$3629.80. An ending fund balance of \$212,193.80 is currently reflected in the presented budget. The current fund balance represented in this report is at 113% but may change. The Fund will spend \$26,705.50 for operations from reserves. Sewer expenditures are summarized below:

- The salary allocations will increase slightly over the 2021 budget due to the allocation process and increase in wages and insurance.
- There are no significant projects planned for 2022.
- Non-operating expenses will reflect the scheduled loan payment for the Sewer loan for upgrades to the collections system and potential professional services for the sewer system.

#### General Improvement Fund

The General Improvement Fund is supported by a 2% sales tax and grants that covers expenses for highway, streets, culture, and recreation. The fund includes both operations and major capital projects.

<u>Revenues</u> – The Town is projecting \$200,000 in sales tax collections which will stay consistent with collections in 2021. Sales tax grants are reflected in the revenues and will be allocated for tree trimming services.

Total revenues for 2022 are \$215,250.

Expenditures – The Town will see a significant increase in expenditures in 2022. At this time there is a significant need for road repairs and \$100,00 has been allocated for this project.

The tree trimming budget is \$15,000.

Since the General Improvement Fund collects 1% sales tax to fund public safety and 1% for roads and general operations, a transfer to the General Fund is required to offset the expense. The transfer in 2022 will be \$100,000 which represents 50% of the total sales tax collections.

Total expenditures in 2022 are \$307,855.80 leaving a fund balance of \$309,279.01 that represents a 100% reserve. There will be deficit spending from reserves in the amount of \$92,605.80.

#### Conservation Trust Fund

The Conservation Trust Fund receives funding from lottery proceeds allocated by the State of Colorado. Funds can only be used for the interest of maintenance and improvements to land, open space, park, and recreation activities. The rules the govern this fund can be found in C.R.S. 29-21-101. Grants are also included in the fund.

<u>Revenues</u> – The Town will see an increase in revenues in 2022. A request will be made to the County to seek funds for \$10,000 to cover improvements in the local parks. Total revenues for 2022 are \$14,525.

Expenditures – The Town will see a decrease in expenditures in 2022 of \$7,500. Total expenditures in 2022 are \$11,500 leaving a fund balance of \$36,114 and a reserve of 314%.

#### Recreation Fund

The Recreation Fund is funded through a General Fund transfer and community fundraising efforts for Powwow. The fund covers Powwow and tree lighting activities.

Revenues – The General Fund will transfer \$1,600 which represents a \$600 increase over 2022. Total revenues for 202 are \$2,000.

Expenditures – The Recreation Fund will see an increase in expenditures in 2022 and will spend \$5000 for the Saguache Community Pow Wow from a sales tax received in 2020. Total expenditures for 2022 are \$5,200 with a fund balance of \$3,891.00 that leaves a 175% reserve.

#### CONCLUSION

The 2022 budget is hereby respectfully submitted. I want to thank all town staff for their hard work and effort in ensuring that town maintains a level of service that the community currently enjoys. Staff is looking forward to making 2022 a great year.

Respectfully Submitted,

Iris Garcia
