### DESCRIPTION

An intensive two-day fit workshop will teach you how to fit this classic blouse to your body.

Kirsten Wolff and Sandy Larson, both Palmer/Pletsch certified instructors, take you through the step-by-step process of tissue-fitting, a proven system to customize patterns for all shapes and sizes.

After altering the pattern on the first day, we move on to the fabric; cutting, pin-fitting and tweaking the final fit. FYI, the vertical darts are optional. When you finish the fit workshop, you'll take your ready-to-sew blouse home to construct.

You will soon have a custom fit blouse to be proud of!
