Have a brand new serger? Or maybe you've had one for awhile but haven't used it yet. Come join us for an in-depth tour and start learning how to use it. Bring your serger and let's get started!

First learn what all the parts are and what they do. You also learn about the tools and accessories that came with it. Then we thread it! We'll walk through the manual along side the machine so you can learn to thread your serger. Lastly, you start to sew, learning how to adjust the tensions for a balanced stitch.

You'll come away with a greater understanding of your machine and a lot more confidence!
