## THE BEST JUST GOT BETTER!

### Introducing Two New Machines

**Introducing the Epic 2 and the new Amber Air S 400 Serger!**

Enjoy the freedom of the new one-touch Air Threading System on our new Amber Air S 400 Serger. With the one-touch air threading system it makes threading your loopers a breeze. There is also a built-in needle threader that can thread both the left and the right needle. This 4/3/2 thread overlock has 15 different stitches for professional and fast sewing.

New LED lighting illuminates the sewing area to reduce eye strain. Differential feed eliminates knits stretching, light fabric puck-

ering and allows you to gather fabric automatically.

We also have two optional sets of feet that can be purchased for this serger. The utility foot set includes a blind hem foot, an elastic gathering foot, a gathering foot, a cloth foot and a gathering attachment. Everything you need to do garment sewing. The embellishment foot set is geared to the home decorator sewer and includes a 1/8" piping foot, a 3/16" piping foot, 2 cording feet, a beading foot and a beading guide. Come by and see it today!

### Beyond Epic!

*Unleash a new universe of sewing and embroidery possibilities using the mySewnet™ ecosystem!*

This ecosystem includes free cloud-based storage and design transfer, apps, Project Creator service, and free fresh projects and ideas available in live feed directly from the *mySewnet™ Blog*. This is the best and the only ecosystem with true WIFI

### Special points of Interest:

- We do repairs on all brands of sewing machines. Our repairman picks up the machines from each store on certain days. Check with your store for pickup days and the price of the cleaning and service.**

## The Designer EPIC™ 2

connectivity that allows machine updates and design transfers from anywhere for free!

New Best in Class Features include a new Ribbon Embroidery attachment. An Industry First! – A true innovation for the home embroidery machine. With the motorized, optional Ribbon Embroidery Attachment, your DESIGNER EPIC™ 2 sewing and embroidery machine will guide and stitch down ribbon in embroidery mode in all directions. Adding ribbon to your embroidery designs has never been easier creating stunning, one-of-a-kind embroideries! The DESIGNER EPIC™ 2 machine is the only one in its class that has the unique Ribbon Embroidery Attachment capability.

The Integrated Dual Feed Technology allows you to use thick and trick fabrics like never before. New 9mm stitches give you more creativity and an adjustable Laser Light Sewing Guide allows you to align you

rows of decorative stitches or gives you accurate lines for quilting.

Six new patented Laser Pictogram stitch techniques have been added. You can Customize any project with exclusive patented stitch techniques that give your project dimensional elements that are effortless and irresistible: appliqué stitches, pop-up stitches, sequin stitches, theme stitches, yarn stitches, and the laser pictogram stitches.

The DESIGNER EPIC™ 2 is a truly Smart Machine. With the power of *mySewnet™* it is better than ever! Continue to enjoy the freedom of the *mySewnet™* cloud with free storage, integration with your *mySewnet™* enabled machine, and PREMIER+™ 2 embroidery software.

Come by and see this unbelievably EPIC machine today! Call your Abbeys store for a demonstration time!

## **Did you know?**

- # Husqvarna Viking now has a new bias binder that is actually a folding binder. This makes adding a binding to your quilt fast and easy! We will be demonstrating this at both the November Round Robin and a Notion Commotion with Nancy Bronstein. The folder can be used with the Epic, Brilliance, 980Q and 75Q. It will also work with the Diamond, Ruby, Topaz and Sapphire, with the addition of a new stitch plate.
- # Your seam allowance when you are quilting is very important. The majority of quilting patterns are based on a 1/4" seam allowance. If this is off by even a 1/16" of an inch it can mess up your quilt. Quilts fit together like puzzles, think of what would happen if just one puzzle piece in a puzzle was the wrong size. The same thing happens with a quilt. Every sewing machine is different with how it handles sewing a 1/4" seam allowance. (A seam allowance is the space between the stitching line and the edge of the fabric). Get a seam gauge and test your 1/4". Learn the best setting for your machine and use it consistently. (The Husqvarna Viking and Pfaff computer machines have 29 different needle positions! You can put your needle exactly where you need it. We also have four different 1/4" feet, so you can find the presser foot right for you!)
- # Give us a Google 5 star rating! You can go to Google.com, type in your favorite Abbey Sewing Center , click on the stars and give us a review.
