

# eXcellence 720PRO

PROFESSIONAL FLAT-BED COMPUTERIZED SEWING MACHINE

---

*Partnering for a long-lasting enterprise*

# WELCOME ON BOARD! YOUR NEW SKILLED AND ENDURING ASSOCIATE

Are you looking for the ultimate tool to support your handmade sewing business? The elna eXcellence 720PRO offers the perfect combination of power, performance and durability to meet your requirements.

## YOUR TALENT DESERVES THE BEST TO CREATE THE UNIQUE

The elna eXcellence 720PRO is a computerized sewing machine with a heavy-duty professional construction and a robust aluminium body. Inspired by industrial-type machines, this model is characterized by a flat-bed design, superior features, remarkable endurance and an array of time-saving functions.

Because the eXcellence 720PRO is designed with the professional sewist in mind, you will appreciate its capabilities:

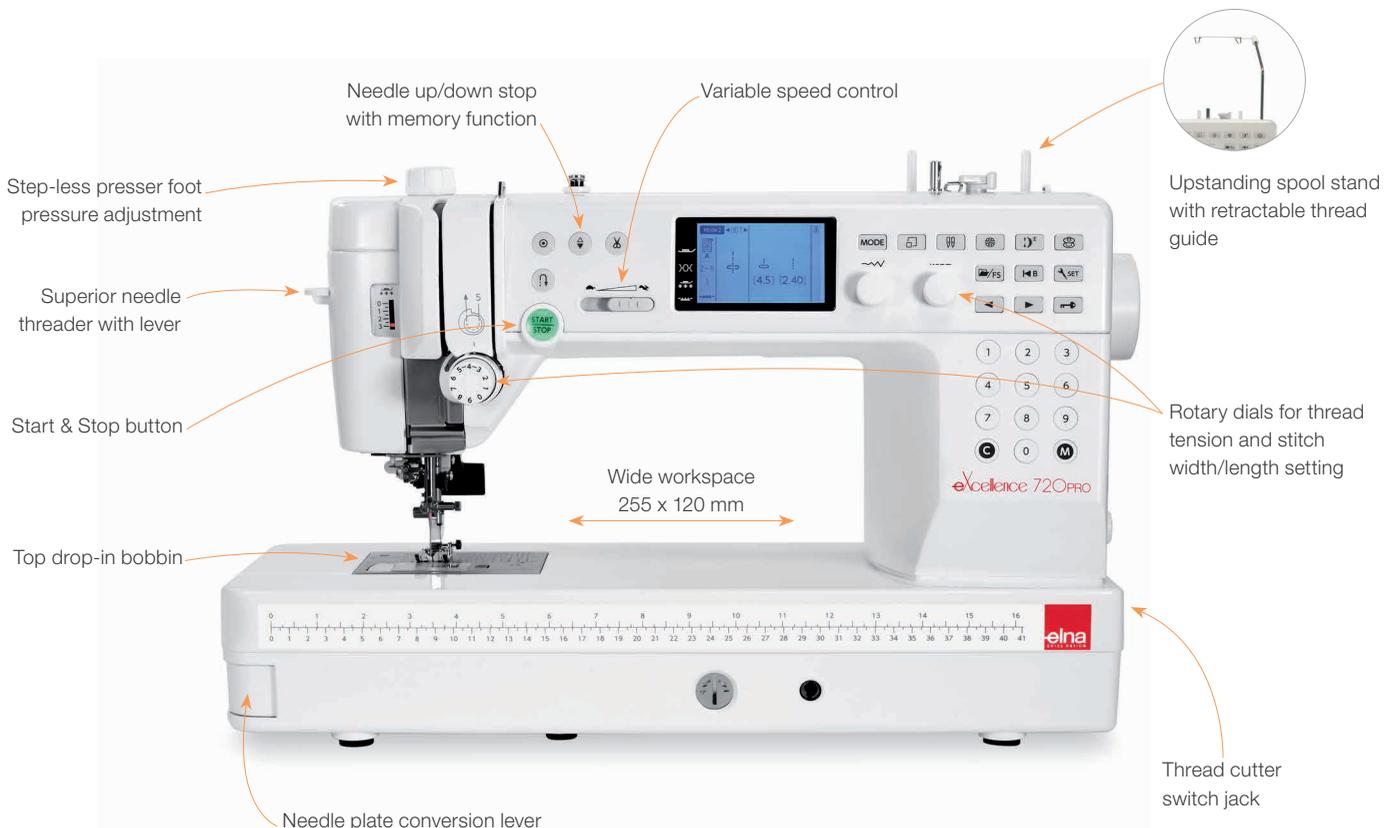

- A powerful motor makes it the fastest model in its category with sewing speed up to 1200 stitches per minute.
- The extra-large sewing area, LED lights in three positions and noiseless operation ensure ideal sewing comfort.
- A choice of 200 stitches, including buttonholes, and a kit of above 40 standard accessories, enables this model to serve a wide variety of tasks and handle any type of fabric.

## WITH DURABILITY AND OPTIMIZED SERVICE BY YOUR SIDE YOU WILL HANDLE CHALLENGING PROJECTS OR TIGHT DEADLINES

No matter if you run a home-based craft business, have established a tailoring studio, are a professional quilt maker or manage a repair service. As a professional using your equipment for commercial sewing purposes, you need to rely on your sewing machine and expect high value from what is meant to be a long-term investment.

With the eXcellence 720PRO, you secure elna's outstanding quality, as well as competent advice and personalized after-sales service through our network of specialized retailers.

In addition, elna offers a two-year warranty for commercial users with the possibility of an extension to five years by subscribing a professional service scheme. This includes a one-time maintenance by the elna official technical service at a special rate.

1

### LDC SCREEN AND PERSONAL SETTINGS

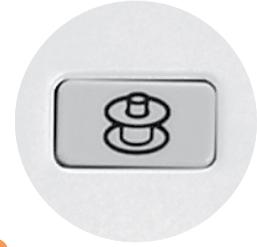

The wide and intuitive screen displays key information and enables easy selection of functions. You can use the FS function to save your personal settings for favourite stitches.

2

### ADJUSTABLE KNEE LIFTER

Raise and lower the presser foot using the knee lifter and keep your hands free.

3

### INDEPENDENT BOBBIN WINDER

By using the spool pin and the winding button, you can wind a bobbin without unthreading the machine while working on a sewing project.

4

### AUTOMATIC THREAD CUTTER

The eXcellence 720PRO is equipped with this time-saving feature. You can easily and quickly trim the threads after finishing sewing by simply pressing the thread cutter button. The thread cutter can also be programmed to cut the threads after locking stitches or at the end of a stitch combination.

5

### EXTRA-HIGH FOOT POSITION

With this function, you can raise and block the presser foot about 7 mm (1/4") higher than the normal up position. This allows for changing the needle plate and facilitates the positioning of your work when sewing thick fabrics or multiple layers.

6

### ONE-STEP NEEDLE PLATE CONVERTER

Our unique system allows for an effortless conversion of the needle plate in one step, by simply pressing a button to release one plate and then inserting a new one. Switching from one plate to another becomes very easy and enables you to use the most suitable plate for your project or fabric.

7

### UPPER FEED SYSTEM BY ELNA

The upper feed device guides your fabric from top to bottom with amazing precision and keeps multiple layers from shifting for perfect matching of stripes and checks.

8

### EXTENSION TABLE

As a professional sewist, you will enjoy the enlarged workspace provided by the extra-wide extension table. Large sewing projects will be easily handled and stability will remain perfect!

## TECHNICAL FEATURES

### GENERAL

	Classification	Computerized sewing machine
	Body construction	Aluminium frame
	Machine size	W 516 x H 300 x D 220 mm
	Machine weight	11 kg
	Bed type	Flat bed (no free arm)
	Sewing space	W 255 x H 120 mm
1	Screen type and size	LCD (78,5 x 47,5 mm)
