

A man with grey hair, wearing a light-colored button-down shirt, is holding a large quilt. The quilt has a dark blue background with a pattern of green and yellow triangles. In the background, there is a window, a mannequin, and a Brother sewing machine on a table. The sewing machine is white and grey with a large touchscreen display showing various settings. The room has a rustic feel with a brick wall and a window with white frames.

**From beginner to pro,
we've got you.**

Why choose Brother?

With over 115 years of trusted innovation and more than 70 million machines sold worldwide, Brother is a recognized leader in sewing and embroidery. Every machine is expertly developed and manufactured in state-of-the-art facilities to deliver exceptional quality, reliability, and ingenuity.

Engineered for ease of use, Brother machines are built to be intuitive, easy to learn and ready to use out of the box. When you choose Brother, you're investing in a brand that stands firmly behind its products with exceptional support, dependable service, and a proven legacy of excellence.

Start Something You'll Be Proud Of

Discover the joy of sewing and quilting with intuitive machines that help turn simple ideas into creations you'll love to share, no matter your skill level.

For beginners starting their sewing and quilting journey.

XR37T

Offers easy-to-use features in a reliable, straightforward machine that gets the job done.

Top Features

- 37 built-in sewing stitches including 1 style of one-step auto-size buttonhole
- 6.2" from needle to arm
- Free arm for sewing sleeves and pant hems
- Wide table and hard case included

For anyone looking for a more robust machine.

H537ST

Offers a durable design built to handle everything from multiple layers of heavy fabrics to delicate silks.

Top Features

- 53 built-in sewing stitches including 1 style of one-step auto-size buttonhole
- 6.2" from needle to arm
- Heavy duty machine designed to sew through multiple layers or heavyweight fabrics
- Heavyweight needles and walking foot included

For beginners who want easy-to-use features.

ND50E

Offers intuitive controls like a start/stop button and variable speed control at an affordable price.

Top Features

- 50 built-in sewing stitches including 5 styles of one-step auto-size buttonholes
- 6.2" from needle to arm
- Start/Stop Button allows for sewing with or without the electronic foot
- Variable Speed Control retains the machine's full power whether used fast or slow

For those looking for a well-rounded, user-friendly machine.

NS80E

Offers advanced ease-of-use features in a compact design suited for beginners and experienced sewists, alike.

Top Features

- 80 built-in sewing stitches including 8 styles of one-step auto-size buttonholes
- 6.4" from needle to arm
- Start/Stop Button allows for sewing with or without the electronic foot
- Variable Speed Control retains the machine's full power whether used fast or slow

Bring Bigger Ideas to Life

Designed for sewists ready to expand their creativity, explore quilting and garment projects, and enjoy greater control with every stitch.

For enthusiasts ready to take their projects to the next level.

NQ575

Offers a large workspace, enhanced fabric control, and easy-to-use features like built-in thread cutters, all at an accessible price point.

Top Features

- 100 built-in sewing stitches, 7 styles of one-step auto-size buttonholes and 4 sewing lettering fonts
- 8.3" from needle to arm
- Automatic Thread Cutter cuts the upper and lower thread
- Stitch Combination personalizes stitches

For lovers of sewing and quilting looking to advance their skills.

NQ700

Offers Jet Air Threading technology for quick needle threading, and specialized feet, making it easy to add clean, finished edges to a project.

Top Features

- Jet Air Threading Technology
- 2-, 3- or 4-thread stitches for professional finishes
- Use the quick-change levers for the rolled hemstitch feature and to activate and deactivate the cutting knife
- Gathering foot, blind stitch foot, piping foot and trim trap included

For anyone seeking professional coverstitching results.

CV3550

Coverstitch

Offers double-sided coverstitching for professional-looking hems, decorative stitching, and topstitching on garments, especially on knit fabrics.

Top Features

- Double-sided cover stitching capability
- Fast and easy looper and cover spreader threading
- Colour-coded thread guides allow for easy upper and lower looper threading
- Extra large 6.1" x 3.9" workspace

Endless Creative Possibilities

From cutting and printing to personalization, each machine is designed to give makers the freedom to explore, experiment, and create freely.

For crafters and quilters looking to cut paper and fabric for a variety of projects.

SDX325 Cutting Machine

Offers precise fabric and paper cutting for crafts, quilts, appliqués and more. Connect to select sewing and embroidery machines for added versatility.

Top Features

- The only home and hobby cutting machine with a built-in scanner for scanning in custom designs
- No PC required with the 5" LCD screen for easy editing of cut data
- Auto Blade Sensor Technology detects the thickness of material
- Transfer custom designs back and forth between the ScanNCut DX and select Brother sewing and embroidery machines – perfect for appliqués!

For creators looking to print custom fabric at home.

HLJF1 Fabric Printer

Offers an easy way to create custom fabric on demand for things like memory quilts, pillows, gift items and more.

Top Features

- Create one-of-a-kind fabric
- Add personalized designs to clothing, quilts, home decorations, cushions and more
- PrintModa takes just minutes to create custom fabrics with a personalized touch
- With built-in wireless² connectivity, creators can use their favourite design software or the Artspira app and print directly from a computer or smart device

For makers who create personalized items as a hobby or for their small business.

SP1 Sublimation Printer

Offers quick and easy personalization of items in a variety of materials like t-shirts, mugs, tumblers and more.

Top Features

- Create personalized projects at home
- Use the Sublimation Printer on polyester materials, like shirts, hats, jackets, or on polymer coated items like mugs, coasters and so much more
- A convenient compact footprint makes it easy to bring big ideas to life, even from a small space
- With built-in wireless connectivity, creators can use their favourite design software or the Artspira app and print directly from a computer or smart device
