

Ron Collin- Jean Class Supply List

SUPPLY LIST

- Fashion Fabric (Washed and dried – twice)
 - suggestions: denim, linen, corduroy, gabardine, and twills. I have also had student do the “Eleonore” jean in a “Ponte” which is a stable stretch knit.
 - I used a 8 oz. stretch denim (2% lycra) for the “Ginger” jeans which is a great fiber content for this cut. For the “Eleonore” fitting shells I used a 3% spandex content with a 25% cross grain stretch. You need a light/medium weight fabric with at least a 20% stretch in the cross grain for this pattern. The fabric has to stretch in the cross grain from 65 cm to 80 cm for this legging jean pattern.
- Interfacing: I did not use interfacing in the “Ginger” jean to maintain the stretch in the waistband. I suggest to use a medium weight weft interfacing like “Style Maker 601” if you do not want stretch in the waistband. There is no interfacing needed for the “Eleonore” pattern.
- Pattern: Closet Core “Ginger” and/or Jalie “Eleonore”
- Pocket Lining (broad cloth or quilting weight fabric)
- Thread
- Contrasting top stitching thread (optional)
- Schmetz Denim (H-J) Needles for Sewing Machine and Serger
 - 8 oz. denim – needle size 80/12
 - 10 oz. denim - needle size 80/12
 - 12 oz. denim - needle size 90/14
- Pins, Scissors, Marking Pen, Measuring Tape etc.
- Zipper: You can use a dress weight zipper or if you prefer a metal teeth zipper. No zipper is needed for the “Eleonore” pattern.
- Thread for serger
- Rivets (optional)
- Sewing machine
- Serger (if you have one)
- Thread for serger
- Steam-a-seam- lite (1/4” wide)
