Welcome to my Mystery Quilt Along

I can't give away the mystery, but want to give you a few advance clues!
Here are some helpful hints for selecting your fabric.

Teal and Green have to work together well as they are used in close proximity. Choose fabrics with some contrast, but not on opposite ends of the value spectrum. One or both of the colors can be a print.

Purple Accent is a dark value

Light and Bright have to work together well as they are used in close proximity. Choose fabrics with some contrast, but not on opposite ends of the value spectrum. One or both of the colors can be a print.

Background can be a light or dark fabric, but all other colors have to contrast with the background.
