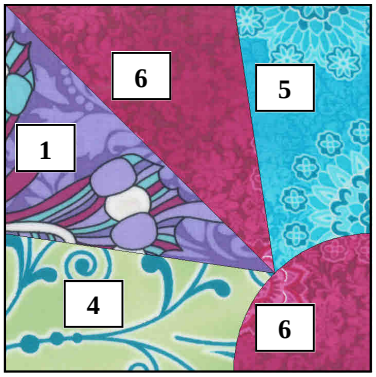
Quilt Construction

Fan Block 1—need 12 copies on foundation paper

Need cuttings from Colors #1-6, 'foundation paper' , sharp edge postcard,
A washable glue stick and a 12" '*add a quarter'* ruler.
Photocopy the appropriate number for each Fan Block on 'foundation paper'
(this paper will not burn when pressed and will tear away when block is finished. (do not cut apart original).

To begin a block (read all instructions before beginning);
Place a small amount of glue to the wrong side of color #1 rectangle.
On the unprinted side of foundation paper cover the center fan blade with the Color #1 fabric rectangle.
When attaching all fabrics do not worry about covering the quarter circle more than an inch
Place the edge of the postcard on the stitching line and fold back the foundation paper over the Postcard to expose the excess fabric.
With the paper and postcard in place, lay the 'Add a quarter' ruler over the edge with 1/4" of the ruler extending to create a seam allowance and then trim excess fabric.
Lay the next fabric choice Color #2 right sides together and even with color #1, pin if necessary.
Turn block to the printed side of Fan block, stitch 1st and 2nd fabric choices together
Following the 1/4" seam allowance on the stitching line.
Do not overstitch the stitching, backstitching is helpful, stitch length should be a little shorter than usual
To help when tearing away the foundation paper after the block is finished.
Trim the 2nd fabric in the same manner as first and add the next rectangle of fabric to the opposite side of Color #1.
Follow the numbers around the block—adding the fabric choices as numbered.
Repeat sequence of trimming, placing and stitching—pressing each section of fabric as you go.
When finished paper piecing around the fan block, you will need to size the block from the printed side.
From the printed side—trim block to 8" square—Add appropriate quarter circle to bottom of each fan block.
Gently remove foundation paper—Need 12 Fan Blocks 1.

Fan Block 2—need 4 copies on foundation paper



These are the Corner blocks for Border 3—to construct;
Combine Color #1 rectangle and Color #6 right sides together in a 1/4" seam allowance, press seam open
Add a small amount of washable glue on the wrong side of seam line.
Fold printed foundation paper in half on center seam line.
On the unprinted side of foundation paper cover the seam line with stitched line of colors #1 and #6.
Trim as with Fan Block 1.
Continue with right and left side appropriate colors as you did in Fan Block 1.
When finished paper piecing around the fan block, you will need to size the block from the printed side.
From the printed side—trim block to 5" square—Add appropriate quarter circle to bottom of each fan block

Inside Plain Block

Using precut 8" squares, turn squares on point and add appropriate quarter circle to the bottom of each square in appliqué manner of your choice.
Finished square should still be 8" square

Assembly Quilt Body

Assemble fan blocks 1 and plain blocks in diagonal rows including sashing and side triangles.
Assemble sashing strips with sashing stone (color #6).
Add corner triangles last.

Gently remove foundation paper—Need 4 Fan Blocks 2.

Quilt Construction cont.

Borders

Square quilt body if necessary before adding borders.

Border 1 and Border 2 (Color #8 and Color #1)

Combine in a strip set and add to quilt body on all 4 sides in miter fashion.

Border 3 (Color #1)

Cut (2) long strips the size of quilt sides—attach to quilt body.

Cut (2) medium strips the measured size (including the sides) for the top and bottom of the quilt body.

Before attaching to quilt body, add Corner Fan Blocks to the end of each strip in the appropriate direction.

Finishing

Quilt as desired, add binding and label to enjoy!
