

## Drunkard's Path: An Introduction to Curved Piecing

- ¼" foot: If you have a narrow zipper foot for your machine, bring that as well. If you have a 9mm Janome that is compatible with the HP foot, bring that as well.
- Thread for piecing top with a bobbin to match. I prefer the QS 60 weight thread
- Microtex sharp needle 12
- Thread snips
- Pins- regular quilting pins and forked pins (the forked pins are optional but very helpful)
- Iron and ironing pad
- Starch like Magic or Best Press

All fabrics will be precut for you for the top. We will only be doing the top in class

This class is designed for you to learn curved piecing, so I precut from my stash!
