It's our 20th Anniversary!

I can't believe it has been 20 years!! It honestly seems like I've never done anything else... only 20 years? I started with friends over to my house for sewing days when Brianna was 4 years old. We always made the same thing: Log Cabin Quilt in a Day. We did it about 6 times a year. We decided to open a quilt shop because we wanted affordable quality cotton fabric and most of all... I wanted my own long arm and I wanted to share it with my friends. Back in the 90's long arming was still a little frowned on for quilt finishing and absolutely NO SHOP anywhere rented their long arm out. I am certain I was the first. Such a trendsetter.

But the best part about our shop was 6 year old Brianna, who could long arm while standing on a chair, she could do border math in her head, help select the perfect blue, and even give a quick lesson on half square triangles. At first people looked at her like she was a daycare reject. Then people realized she was not only adorable...

she knew what she was talking about. People came in just to see her! She designed her first pattern when she was 8 and went to her first Quilt Market when she was 10. It was such a treat for her to have a community of "moms" watching her grow up into such a lovely young woman. Now that she is the mother of baby Harper... we are hoping to soon have another squeaky little voice running around the

shop searching for the perfect blue and offering opinions. Can't wait for that!!

So our official anniversary date is October 4th. We are planning a week long celebration with daily events, specials, games, prizes, and ending with a big Gala Dinner which will feature a gourmet four course catered meal, live music, gift bags on every seat, a slide show presentation, Quilt Auction and huge door prizes. The dinner tickets are only \$49 each with seating limited to only 60. All proceeds from the evening will be going to our Youth Sewing Contest and Summer Sewing Camp Program. Get your tickets early!! This will be a fun evening 20 years in the making!! You should join us!

Look through the newsletter. Sorry it's so long but we wanted you to have the whole year for planning. Lots of good things going on!! Happy Quilting!!

Resolutions: A BOM dedicated to "Living your Best Life!!"

We have promised for years to repeat this class. It was one of the largest block-of-the-month series we ever hosted. Lots of planning but crazy fun! Each month we make a "resolution", in life and in quilt block. It can be to "play more", "garden daily", "drink good wine" etc.

Each month we will discuss the featured block with life lessons, often with the help of a guest speaker (vintner; master gardener; Yogi; artist; chef and many more surprises) and a suggested reading list. These classes will be out in Soap Lake at the Event Center, which is better for guest speakers

who need space and set up time for "props", food, wine, etc. Series is 12 months on one Monday evening/month. Each class is only \$12 and includes class, gifts, food and door prizes. This is a fun class with lots of special girl time but no sewing machines needed for this one. From 6pm - 8pm once a month. You will love it!!

Machine Service from Certified Technicians

Two things to keep in mind when it comes to your sewing machine: machine quality and routine machine maintenance.

Your sewing machine is one of the most essential tools you will use for quilt making and clothing construction, and it should be dependable. Start by purchasing a machine with an all metal interior and an accountable warranty. The department store models that are sold for \$100 - \$150 are not meant to last. Even when you buy the optional warranty, it is generally for just a year. They will last for an estimated 120 hours of sewing, and it's possible the balling up of fabric and thread will make that time unbearable. They have a plastic interior and the parts are **not** replaceable. Read the customer reviews and don't waste your money on a machine you will have to quickly replace. Pfaff has an entry level machine with 1100 stitches, 6 feet, three LED lights, a hard carrying case, all metal interior and a 10 year warranty for only \$699.

Second thing: maintenance. When you purchase a Pfaff from us your first year's service cleaning is on us; if it is an embroidery machine, we clean and service it for free for two years. After that, annual service and cleaning is just \$59. All feet, attachments and accessories are 10% off ... for life. Parts warranty is 20 years.

Our two technicians are certified and quick. They will service all brands, makes and models, new and old for just \$79 for a basic cleaning/service. This is recommended for **all machines, every year**. The majority of machines that "gum up", "jam" or stitch poorly are often related to the lint build up in the machine, most of which is unreachable by quilters with brushes and tweezers. Take care of your investment for years of enjoyment. Have it serviced regularly.

One last thing... as technology changes so do our machines and parts availability. Many of you bring in those older machines and are sad to find parts are now hard to find. We don't have the time or patience to deal with e-bay parts on non-Pfaff machines, but if you bring in your machine with the right part, Jordan can put it in for you.

Sign up for our Featherweight maintenance class this summer! July 31st. Bring your machine, leave with it serviced and with the knowledge to repeat the steps as needed to keep it running great for another century!!

Beginning Quilt Class Starting in April

We are always experimenting with the best way to instruct new quilters. We will help with any questions if you come into the shop, we have a popular you tube channel, and we have lots of quick classes. But sometimes you want to bring your machine, and carefully walk through every step of a block to truly understand all of the important steps

involved.

This featured quilt pattern was designed by Cindi and is taught by Cindi. It features great written directions, additional patterns every month and bonus information. The featured classes are HST and QST, Hand appliqué, fusible appliqué, pattern math. flying geese, paperpiecing, color concepts, square in a square,

3D pinwheels, sashing, settings and proper borders.

This class starts in April and is offered as a day or evening class. It's just 2 hours, you bring your machine and fabric, we have everything else. Only \$10/class, or 50% off if you sign up and commit to the whole year!

Multiple Collage Quilting Opportunities!

The collage quilts are still one of our most popular classes. We have two options for these classes: Class One is the lecture/demo. Cindi will show you the difference between the broderie perse and the paint by number techniques; she will show pattern prep work, fabric selection tips, and layout tips to begin your selected project. There is no sewing or cutting in this class, but ALL of your questions will be answered. Class TWO is when we put it all together. You really could do this step at home, but if you feel like you want some help with decisions, we are here for you! . You will bring your pattern base, your prepared fabric, and we will provide a large design wall and assistance!

Retreat Option: This is a two - three day option to make your masterpiece from start to finish with full assistance!
Featured in both the Rose Garden Retreat and Nannigans!
Check out the calendar for Class One and Class Two dates and times!!
Class is limited to 8!

Jelly Roll Rug, Rolled Bag or Gathering Basket!

Our most requested class was for the Jelly Roll Rug. Many of you have purchased the batting but you're just not sure where to begin. We'd love to show you. But we thought we would also take the few minutes to show you the variations. Would you like to make a bag? or a basket? or a bowl? Each vessel is unique with different materials and a different technique.

Come join us for our 2 hour class, The first 45 minutes will be demonstration and lecture, then you'll have lots of time to work on your project and perfect your technique.

Offered three times this year. Each class limited to 8 participants.

Virtual Studio Tours, Best Tips and Tricks!

Do you wonder what makes some quilters so much more productive than others? It is caffeine? An assistant? Alien powers? No. It's organization.

A place for everything, easily accessible. All of us make a mess while we are planning and quilting, but if you want to have a better system when it's time to put it all away... we have been on a quest for you. We have quite an assortment of videos

from both local and well known artists that have shared their work studios and their best tips for keeping it all together. We have a fun day planned with the virtual tour, organization demonstration, a view of what NOT to do and a key set of labels. Then after a tasty lunch we have an afternoon of sewing

demonstrations planned involving four stash busting patterns, sewing room accessories and organizational tools. A fun day, no supplies necessary, you will leave with a bag of patterns and goodies!

We've put a lot of thought into a flexible retreat for our out of town customers who would like a few days for a little sewing vacation. With the summer opening of our new retreat condos, we will have the luxury of two twin beds per bathroom in a very private setting. Easy enough for group events, but private enough that you don't have to be friendly if you don't want to be. Full kitchens, open living rooms and large screen TVs in every condo; but huge 2000 square foot sewing center with two tables, a rolling chair and a design wall for each guest.

We have selected six days of popular classes which include a guest speaker and a big Studio Tour event. The classes are only \$45/day. Or, we have a package room/meals/class deal for only \$99.

Choose your days, choose your stay. Class only or overnight. Bring a friend and make it a vacation! We will have additional "excursions" including an art blowing class (you make a paperweight or necklace), a geological hike, and/or a kayak lesson on the lake for those staying 2 days or more. 20th Anniversary Week!!

Our official 20th anniversary date is October 4th, 2019. We opened two months before the Y2K end of the world. Clearly we were optimistic even back then!

We are planning a week long celebration with daily events, specials, games, gifts, and ending with a big Gala Dinner which will feature a gourmet meal, live music, gift bags on every seat, a Quilt Auction and huge door prizes. The dinner tickets are only \$49 each with seating limited to only 60.

All proceeds from the evening will be going to our Youth Sewing Programs. We are adding a second youth sewing contest in 2021. We gave out over \$4000 in prizes last year, including a brand new machine to the Grand Prize winner. We are also adding a summer sewing/quilting youth camp in 2021. We are looking forward to our next 20 years, with continued focus on encouraging everyone to quilt every day!

Join us for a fun evening to celebrate the start of our 21st year! Gala dinner tickets only \$49. Proceeds to two youth programs.

Our 9th Annual 12 Days of Christmas starts November 25th!!

Make sure you're on the nice list! If you participated with Mrs. Clause for Mother's Day or with Santa last year then you are on the list (unless you ordered items for your stocking and didn't pick them up - that's the naughty list and you'll have to sit out this year). It will work the same this year as in previous years and we will be very strict about numbers - when we are sold out, we are out. No rain checks. So you will have to be quick.

You'll get an email every weekday evening at 5pm for a special kit, fabric packet, notion, or gift at a substantially reduced price. There may be limits on items, but generally you can get one for you and one as a gift.

You will just have to email Santa back and say "Stuff my Stocking". You may also have to indicate a color preference. There will also be some contests, games and bonuses along the way... just for fun! This will go on for 12 weeknights. Then, on Friday the 13th or Saturday the 14th you will come in and pay for and pick up your gift bag of goodies! If you want your package mailed to you - they will go out December 16th via USPS first class (that's almost as good as via reindeer and sled!).

email santa@fabricpatch.net if you want to play!

Need to Rent a Machine?

For your sewing convenience and pleasure we have a limited number of Pfaff sewing machines available for rental during classes. If your machine is too heavy or difficult to lug to class, or if you just want to test drive an award winning machine, just reserve one when you register for class. Reservations are on a first come basis (2 per class, no embroidery models). The fee is only \$10 per class, we supply the bobbins, you supply the thread.

If you end up buying a Pfaff, you can apply 6 months of machine rentals to your already low purchase price.

Class Registration Information:

To enroll in one of our classes, please come into the shop, call us with your credit card payment, or sign up online. Class fees must be paid at the time of registration. Without payment, you are put on a “wait list” with no guarantee of a spot. Please register early to avoid the disappointment from a class being too full or cancelled due to insufficient enrollment.

There is a supply list for every class and we are happy to go over the list and help you with those needs.

We love your children, but please leave them at home as the classroom can be a dangerous place.

We must commit to our teachers, so there are no refunds for cancellations less than 10 days prior to the class but you are always welcome to send someone else in your place. For out of town teachers or retreats, we require a 2 month notice for a full refund, unless we are able to fill your spot.

Thank you for your understanding!
