

Sallie Tomato Charade Crossbody

All pattern pieces were printed at 83% except Pocket Facing for the store sample. Pocket Facing is 100% size regardless of size of bag.

If you are using faux leather (vinyl) be sure your machine can handle sewing 4 layers of that together. If not, please use something thinner such as cotton or canvas fabric for the bottom exterior corners of the bag.

Please be sure to print & cut out all of your paper pattern pieces BEFORE class. If you are not making a bag the same size as the store sample, please follow the pattern for pattern pieces and cut sizes.
