**Prior to class - Print the pattern pieces at 100% or "Actual Size". After printing check the test measurement box on page 23 of the pattern. It is also helpful to print the provided labels. I print my pattern pieces on cardstock because it is easier to cut the fabric pieces.**

**Notes**

- Fabric choices for lining, front zipper pocket interior, inside pockets and inside zipper pocket can be same fabrics as Exterior and Contrasting or anything of your choice.
- The exterior and the strap can be fabric, cork or faux leather
- Seam Allowance for this pattern is 3/8"
- The class samples are 1" taller than the pattern. I will show you in class how I made that adjustment if you would like to do the same. Bring extra cardstock and tape if you wish to make that or any other pattern adjustment. If you do this wait until class to cut your fabric pieces.
- If you want to speed things up to be better prepared ahead of class go ahead and iron the Shape-flex onto your exterior fabric, exterior contrasting fabric, lining fabric and pocket fabric. Do not iron Shape-Flex onto the strap pieces.
- If you aren't changing the pattern size or height you can cut your fabric ahead of time as well or wait until you get to class.

**Class registration policy:** All classes must be paid for at the time of registration. If a class is cancelled due to lack of minimum enrollment the class fee will be refunded. Any cancellation must be made at least 72 hours in advance to receive a refund. Teachers need time to prepare class handouts and supplies, so please register as early as possible to ensure your place in class and to avoid disappointment.
